SUBJECT: ACCC CONVENTION BOULEVARD RESURFACING-- ADDENDUM #1

Questions

1. On Page 8 on the bid docs it says "The documents required to be.....and attached to the sealed envelope containing the bid submission" What are these documents? Is this on reference to page 9? If so, then two envelopes are required?
This is for the bid bond and surety documents. Must be placed in a separate envelope.
2. On Page 14. Paragraph N. it indicates that failure to submit a signed contract shall result in the bid being deemed non-responsive?
This is quite unusual, typically the bids are opened and reviewed by the owner, then awarded by the owner to the lowest qualified bidder who then would execute a contract from said owner?
Enclosed contract must be signed for submission. Does not indicate that the project will be awarded to any particular bid responder.
3. We assume the project is not subject to State Sales Tax?
Project is tax exempt. Documents to be provided to awarding bid responder.
4. Is there an electrical plan available for the Bollard Lighting item? The plans indicate just a location and the bollard detail which is non-descript, what is the type of existing bollard to be replaced? Please provide Make / Model / etc.
There is no electrical lighting plan available for the bollard lighting. Contractor shall provide lighted bollards to match existing lighted bollards or submit an approved equal for review. Please refer to the Technical Specification Section 265000 - Lighting for additional details.
